**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is insufficient structure set forth in the claims to determine a container body or the ramp, how the ramp defines more than one plane, and the ramp's function with respect to the other parts of the container. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. Therefore, it is suggested the claims be amended to include structural details which more clearly set forth the claimed invention.

***Claim Rejections - 35 USC § 102***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Hupp (WO 01/51378).

To the degree set forth in the claims and given the broadest, reasonable interpretation, the inclined surface of the fastener is a ramp. Moreover, the portion 64 is also a ramp that extends from the first end of the closure further having an inclined surface extending out of the plane of the fastener.

Regarding claim 17, a portion of the fastener lies multiple plans, thus defining more than one plane.

***Response to Arguments***

4. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

**Conclusion**

5. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (703) 872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.

6. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

I hereby certify that this correspondence for Application Serial No. \_\_\_\_\_ is being facsimiled to The U.S. Patent and Trademark Office via fax number (703) 872-7306 on the date shown below:
